H. B. STEVENS, Treasurer.

This certifies that I have examined the foregoing account and find it properly vouched and correctly cast.

GEORGE P. LOVELAND, Auditor.

SCHOOL REPORT.

In preparing our annual report of the schools of Runney we find little that is new for your consideration.

We have maintained thirty-three weeks of school, the same as last year; and with one exception, the Mont View school, the same teachers have been employed which is a sufficient guarantee that they have been successful and up to the standard.

No position is more exacting than that of a teacher; none requiring greater tact or patience. We should not expect any greater degree of perfection in teachers than in any other class of people.

The attendance the past year has been very good. I refer to the year ending July 15, 1911. Our percentage of attendance for the year being 86 per cent for which we received the

sum of \$198; also \$198 for approved teachers, and \$388 for high school rebate; making in all \$784 besides the Literary Fund. This has enabled us to maintain the thirty-three weeks of school the past year. But there is no assurance of the same amount the coming year. It rests with you, children, whether we shall be allowed any sum for average attendance the coming year. We earnestly desire that you will endeavor to be present every day if possible.

We have followed our usual custom of giving badges for perfect attendance with about the same results. In view of the number who will be prepared to enter high schools the coming fall we would make the following recommendation as to appropriations for the coming year: For high school tuition, \$500; for text books and supplies, \$300; and \$15 for maintenance of flags.

Following the instruction of the Superintendent of Instruction your school board visited the school recently opened at Bethesda Home for needy children. We found the school pleasantly located in a well lighted and heated room with ample equipments for school work, and under the efficient instruction of Miss Elsie M. Carter whose reputation as a successful teacher has been fully established. We congratulate the manager of the Home for being so fortunate as to secure such an efficient teacher for the children who are under his care and supervision.

In closing let me urge you, parents, to see to it that your children attend school regularly, for school is a necessity if our boys and girls are to have a fair show in the great progressive world into which they must soon pass. We are laying foundations; let them be worthy of the Granite State; and the sons and daughters of Rumney will bear a strong and noble part in the grand work of the present century.

Thanking all for the many courtesies shown us in the past we respectfully submit this our annual report.

SUSIE C. ATWOOD,	}	School Board of Rumney.

		G. C. Craig, use of derrick, mdse, kerosene, cement and dynamite	57 53
			<hr/> \$500 00

Fourteen permanent culverts were built with the \$500 raised. The amount of old plank taken from these culverts and replaced by stone and cement being over 4000 feet.

This certifies that I have examined the foregoing account and find it properly vouched and correctly cast.

GEORGE P. LOVELAND, Auditor.
